### Bilateral Meetings

- Tuesday 16:00 - 18:30
- Wednesday 09:00 - 10:45

### Description

The primary businesses of the company Inmold Plast are the production of high quality injection moulds for plastic and mass production of plastic parts. Our team has extensive experience in the plastic injection technology which currently presents a very important segment of our business. We are equipped with over 40 plastic injection moulding machines with clamping forces ranging from 40 to 1000 tons.
