- Tuesday 16:00 - 18:30
- Wednesday 09:00 - 10:45

Description

Light Vehicle Driveline Technologies Dana is a leading supplier of traditional and electrified light-vehicle driveline technologies, including complete drivetrain systems and components for passenger cars, crossovers, SUVs, vans, and light trucks, Dana works collaboratively with original-equipment manufacturers and the aftermarket to deliver Dana axles, Spicer® propshafts, Variglide® planetary variator technology, and other driveline components with best-in-class efficiency. Commercial Vehicle Driveline Technologies Dana is one of the world's premier providers of drivetrain and tire-pressure management systems as well as genuine service parts, for medium- and heavy-duty commercial vehicles. Our cutting-edge Spicer® innovations increase fuel efficiency and decreases weight while reducing maintenance and total cost of ownership. Off-Highway Drive and Motion Technologies Dana delivers fully optimized Spicer® drivetrain systems and individual product solutions to mobile off-highway customers in construction, agriculture, material-handling, and underground mining markets, as well as Brevini® motion systems for associated machine working functions and stationary industry equipment. We bring our global expertise to the local level with technologies customized to individual requirements through a network of strategically located technology centers, manufacturing locations and distribution facilities. Power Technologies Dana delivers Victor Reinz® sealing solutions and Long® thermal-management technologies to help reduce fuel consumption and emissions, while improving vehicle durability and performance. Our engineers anticipate industry trends to provide innovation, value, and quality in every technology, and our strong engineering know-how leads to high product performance, flexibility, and speed to market. Further, we are advancing technology optimizes the performance of hybrid and electric vehicles in all end markets.
