Hauts-de-France Automotive Cluster

<http://www.poleautohdf.fr>

Bilateral Meetings

- Tuesday 16:00 - 18:30

Description

The Hauts-de-France Automotive Cluster is a regional cluster representing the 1st Automotive region in France: Hauts-de-France. In numbers it represents: - 7 production sites (Renault, PSA, Toyota) ; - 700.000+ vehicles produced in 2017 ; - 55.000 people working in the Automotive Industry; - 450 Automotive companies, mainly SMEs; The cluster coordinates the regional Automotive actions and consists of 180 members: OEMs, SMEs (80%), Research Institutes. Actions are led toward 5 objectives : - Develop a Regional common Strategy; - Strengthen the Hauts-de-France's attractiveness; - Develop Research and Innovation projects; - Bring together the economic and academic actors; - Develop the automotive sector with multiples projects; These objectives are realised in a framework composed of 5 pillars: - Competitiveness; - Employment and formation; - Financing; - Innovation; - Internationalisation; The cluster is connected with the Regional Automotive association, linked with other French regions through the National Automotive Platform and member of several European networks.
